COMMUNIQUE "Communique," a newsletter publication of the Michigan State University College of Osteopathic Medicine, is issued 18 times a year through Medicine and Health Information, A 314 East Fee Hall, East Lansing, Michigan 48824; telephone 517/353-0820. Members of the Editorial Advisory Committee include Robert C. Ward, D.O. (chairman); Francis A. Bernier, Ph.D.; Lon A. Hoover, D.O.; Sandy Kilbourn, M.A.; Gordon Spink, D.O., Ph.D.; Kenneth Stringer, D.O.; Jane A. Waldron; Kay E. White, Ph.D.; Nancy Houston, B.A. (editor), and Patricia Grauer, M.A. (managing editor). Circulation manager is Mary Palmer. Production is done by Beth Stephens and Connie Burch; photography by Dick Wesley. Date of publication of the next issue is Monday, September 21, 1981. Deadline for material to be included in that issue is noon, Wednesday, September 9.

Michigan State University is an equal-opportunity/affirmative action institution.
RIVERSIDE OSTEOPATHIC HOSPITAL

Riverside Osteopathic Hospital is aptly named. It is definitely riverside, giving its patients and staff a particularly healing view of a broad expanse of the Detroit River as it moves through Trenton.

It is also definitely osteopathic, with one of the first hospital-based osteopathic manipulative therapy programs in southeastern Michigan.

With Detroit Osteopathic Hospital and Bicounty Community Hospital (Warren), Riverside is a division of Detroit Osteopathic Hospital Corporation. Because of its location south of Detroit, however, it maintains a medical staff and a medical education program distinct from the other two institutions.

Presently a 199-bed facility, Riverside Osteopathic Hospital was established in 1944 by several physicians who originally located the hospital in the Church family estate residence. The medical staff of approximately 80 now includes osteopathic physicians, allopathic physicians, oral surgeons, and a podiatrist. Departments include anesthesiology, emergency medicine, general practice, internal medicine, obstetrics and gynecology, pathology, pediatrics, radiology and surgery.

Hospital facilities include a fully-equipped emergency room, diagnostic and therapeutic nuclear medicine services, modern physical therapy facilities and a medical library.

Adjacent to the main hospital is the Riverside Professional Building, opened in 1978, which includes offices for approximately 20 physicians. Connecting this building to the hospital will be a new two-story ambulatory care center which greatly expands the hospital's outpatient facilities.

The hospital also maintains the Monway Clinic, a primary health care facility in a rural area at the boundary of Wayne and Monroe Counties.

Dr. Glinter, DME, conducts a noon gynecology conference at ROH.
MEDICAL EDUCATION
AT RIVERSIDE OSTEOPATHIC

Riverside Osteopathic Hospital offers the full range of medical education - clerkships, internships and residencies, including a cardiology fellowship.

The hospital is approved for residencies in internal medicine, obstetrics and gynecology, orthopedics, general surgery, general practice and anesthesiology.

Electives are offered in anesthesiology, cardiology, cardiovascular/thoracic surgery, emergency medicine, general practice, general surgery, internal medicine, neurology, nuclear medicine/endocrinology, and obstetrics and gynecological surgery.

Other electives include oncology/hematology, ophthalmology, orthopedic surgery, osteopathic medicine, otorhinolaryngology, orofacial plastic surgery, pediatrics, physiatry, radiology, and respiratory diseases and therapy.

Director of medical education at the hospital is Kenneth P. Glinter, D.O., a gynecologist who stresses the importance of cooperation in teaching in the hospital setting.

"I see a major portion of my job to be creating an environment in which the DME, teaching physicians, residents, interns and externs can work together to reach their common goals," Dr. Glinter said.

"I try to establish rapport with the housestaff by meeting on a regular basis," he said, "and counsel each regarding their electives, goals, and evaluations. Creating good communication when things are going well makes it far easier to deal with problems when they do arise."

Dr. Glinter began his stay at Riverside as a resident, has been a member of the staff for eight years, and DME for more than four years.

"We particularly enjoy having MSU students rotate through the hospital," Dr. Glinter said. "Their curiosity is very stimulating to the rest of the housestaff, and teaching them also improves the education of the interns and residents."

NEW DIRECTOR OF DEVELOPMENT FOR MEDICAL PROGRAMS NAMED

Patricia Soutas Cole of Lansing has been named director of development for medical programs at Michigan State University. She assumed the newly created post August 3.

Cole will plan and direct the organization and operation of a comprehensive development program for the College of Osteopathic Medicine, College of Human Medicine, and College of Veterinary Medicine. Duties include annual solicitation of alumni and friends of the colleges, special purpose appeals and college relations programs with business, industry, and interested foundations.

Cole has held a series of progressively responsible positions in state government during the past eight years. Most recently she was executive director of the Toxic Substance Control Commission.

Before coming to Michigan, Cole was a newscaster and talk show hostess with KSL-TV, Salt Lake City, and an administrative assistant for the Department of Psychiatry, University of Utah Medical Center, Salt Lake City. She is a graduate of the University of Utah.

MSU NAMES NEW HEAD OF COLLEGE OF NURSING

Gladys Atkins Courtney, R.N., Ph.D., professor and former dean of nursing at the University of Missouri - Columbia, has been named dean of the Michigan State University College of Nursing. Her appointment, effective September 1, was approved Friday, July 24, by the MSU Board of Trustees.

Dr. Courtney succeeds Isabelle Payne, who will hold appointment as professor of nursing until her pre-retirement leave begins January 1.

Dean of nursing since last spring, Dr. Payne came to MSU in 1959 as instructor in institutional research. She was appointed associate professor of nursing in 1961 and named director of the School of Nursing in 1971. The school achieved college status last summer.

Dr. Courtney holds the Ph.D. in physiology from the University of Illinois at the Medical Center, Chicago, and is a 1951 diploma graduate in nursing of Baronness Erlanger Hospital, Chattanooga, Tennessee. She was in clinical nursing for seven years and holds a master of science degree in physiology from Louisiana State University and a bachelor of science in biology from Louisiana College.

Following three years on the biology faculty at Malone College (Canton, Ohio), she was named associate professor of nursing and associate professor of physiology at the University of Illinois at the Medical Center. She was director of the nurse scientist program and head of the department of general nursing from 1969-76. From 1976 to August 1980, she was dean of the School of Nursing at the University of Missouri-Columbia.
Dr. Courtney's major research interests include metabolism of adrenal cortical steroids during environmental stress, and relationship of adrenal cortex to ovarian function.

She was project director for a research development grant from the former Department of Health, Education and Welfare to the University of Illinois College of Nursing, and served as a research associate in the university's department of physiology. Earlier she held a United States Public Health postdoctoral fellowship and worked as a technician in the Aeromedical Laboratory, also in Illinois.

Dr. Courtney is a member of various scientific and professional organizations, has served on numerous university and professional administrative, advisory and research review committees.

SIR JOHN WALTON, EMINENT NEUROLOGIST,
TO VISIT MSU SEPTEMBER 4

Sir John, professor of neurology and dean of medicine at the University of Newcastle upon Tyne, will speak in the Clinical Center Auditorium at 10 a.m.

President of the British Medical Association, Sir John is the author of nine medical texts, including Diseases of the Nervous System, Disorders of Voluntary Muscle, and Essentials of Neurology.

ALUMNI SCIENTIFIC SEMINAR
SEPTEMBER 11-12

The third annual alumni Scientific Seminar and Football Weekend, open to any interested person, will be held September 11-12 at MSU's Kellogg Center, beginning at 5 p.m. Friday.

Speakers and topics will include:
"Transcutaneous Oxygen and CO₂ Monitoring in Maximal Stress Testing" by John Downs, D.O., D.D.S. ('73)
"Iatrogenic Psychoses" by Rosemary J. Havey, D.O. ('74)
"OMT Demonstration and Treatment Service" by David R. Neff, D.O. ('80) and Lon Hoover, D.O., associate professor of family medicine
"Special Problems in Manipulation" by David R. Neff, D.O. ('80)
"Routine Health Care for the Adolescent" by Ruth Worthington, D.O. ('77)
"Hypochromic Microcytic Anemia of Infancy and Childhood" by Merrilee Osborn, D.O. ('79)
"Postdate Pregnancy" by Michael Weiss, D.O. ('78)
"The Taoism of Andrew Taylor Still" by Craig Downs, D.O. ('75)

The weekend will conclude with the MSU/Illinois football game, which begins at 1 p.m. at Spartan Stadium.

Registration fee for the seminar is $55 for members of the College of Osteopathic Medicine Alumni Association and $65 for nonmembers, and includes continental breakfast and lunch. Spouses are welcome to attend all programs with no registration fee, but must pay for luncheon. Dinner is $12.50 and football tickets $11 above the registration fee. For further information, contact Sandy Kilbourn, 517/353-8822.
MONDAY, OCTOBER 26

SATURDAY, OCTOBER 31

FRIDAY, NOVEMBER 6

Eleventh Annual Convocation of MSU College of Osteopathic Medicine honoring the 1981 entering class. Keynote speaker will be Frederick C. Robbins, M.D., president of the Institute of Medicine of the National Academy of Science. The Walter F. Patenge Medals of Public Service will also be awarded. Erickson Kiva.

SATURDAY, NOVEMBER 7

"Hypertension," cosponsored by MCCEOM and Garden City Hospital. Program chairman is Lester Eisenberg, D.O. Contact Duane M. Tester, 313/335-7742. 6245 N. Inkster, Garden City, Michigan.

7:30 a.m. "Seminar in Internal Medicine," sponsored by the Michigan Osteopathic Medical Center, Inc. No fee. For information, contact the Medical Administration Office, MOMC, 5435 Woodward Ave., Detroit, 48202; 313/494-0468. Seminar at Engineering Society of Detroit, 100 Farnsworth, Detroit.

WEDNESDAY, NOVEMBER 11

6:30 p.m. Urology seminar series: "Patient Education in Urology" by Vernon Urich, M.D., chairman of the Urology Section of St. Joseph Hospital, Flint, and chairman of patient education, American Urologic Association; "Uro-radiology" by Brent Murphy, D.O., staff, Urology Department, Flint Osteopathic Hospital. 2½ hours CME credit requested. Dinner included. Contact Duane M. Tester, 313/335-7742. Michigan Center for Continuing Education in Osteopathic Medicine, 900 Auburn Rd., Pontiac.

SUNDAY, NOVEMBER 15

MONDAY, AUGUST 24

FRIDAY, AUGUST 28

FRIDAY, SEPTEMBER 4

10 a.m. Sir John Walton, K.B., T.D., M.D., D.Sc., F.R.C.P., professor of neurology and dean of medicine, University of Newcastle upon Tyne, and internationally renowned neurologist and author of several texts, will discuss "Changing Concepts of Neuromuscular Disease." Contact Sandy Kilbourn, 517/353-8822. MSU Clinical Center Auditorium.

TUESDAY, SEPTEMBER 8

WEDNESDAY, SEPTEMBER 9

6:30 p.m. Urology seminar series: "Pediatric Urology" by R. Lawrence Kroovand, M.D., assistant professor of urology, Wayne State University School of Medicine and associate director of pediatric urology at Children's Hospital of Michigan; "Uro-Radiology" by John R. Lanesky, D.O., staff urologist, Bi-County Community, Botsford General and Detroit Osteopathic Hospitals. 2 1/2 hours CME credit requested. Dinner included. Contact Duane M. Tester, 313/335-7742. Michigan Center for Continuing Education in Osteopathic Medicine, 900 Auburn Rd., Pontiac.

FRIDAY, SEPTEMBER 11

Dinner included. Contact Duane M. Tester, 313/335-7742. Michigan Center for Continuing Education in Osteopathic Medicine, 900 Auburn Rd., Pontiac.

SATURDAY, OCTOBER 24

1982 SEMINAR IN THE SUN: CANCUN

It's not too late to join the 1982 Seminar in the Sun, sponsored by the College of Osteopathic Medicine Alumni Association. The trip, scheduled for February 27 through March 8, 1982, will be to Cancun, as island off Mexico's Yucatan Peninsula.

Twenty hours of Category I continuing medical education will also be offered. Costs range from $1030 to $1140 per person, double occupancy, with an additional fee for the educational program. For further information, see the August issue of "Communique," or contact Sandy Kilbourn, 517/353-8822.

* * * *

ADVANCED MUSCLE ENERGY TUTORIAL
SEPTEMBER 21-25

An Advanced Muscle Energy Tutorial (Above the Diaphragm) will be held September 21-25 as part of MSU-COM's manual medicine series.

The program, cosponsored by MSU-COM and Lansing General Hospital, is approved for 40 hours Category I credit from the American Osteopathic Association. Application has been made for 40 hours of credit from the American Medical Association.

Registration is limited to applicants with previous coursework in Basic Muscle Energy Technique. Topics include examination, analysis, and treatment of the upper extremities, cervico-thoracic spine, and thoracic cage. The course fee of $500 includes a daily luncheon.

For further information, contact Sandy Kilbourn, 517/353-8822.

* * * *

MYOFASCIAL RELEASE TECHNIQUE
TUTORIAL OCTOBER 2-4

A tutorial on myofascial release techniques will be held at MSU's Kellogg Center October 2-4.

A three-day intensive course in the fundamentals of myofascial therapy, this tutorial is designed to assist in the development of both basic and advanced palpatory and manipulative skills. The program includes lectures, demonstrations, and much small group practice.

Faculty include Anthony Chila, D.O., associate professor of family medicine, Ohio University College of Osteopathic Medicine; John Peckham, D.O., associate professor of physical medicine and rehabilitation, Texas College of Osteopathic Medicine; and Robert C. Ward, D.O. professor of biomechanics, MSU College of Osteopathic Medicine.

Enrollment for the course is limited to 30. The program has been approved for 24 hours of Category I CME credit by both the American Osteopathic Association and the American Medical Association.

For further information, contact Sandy Kilbourn, 517/353-8822.
CHALLENGES FACE NEW D.O.s:  
HOODING ADDRESS

Since the publication of the issue on hooping  
at MSU-COM, the "Communique" staff has  
received a number of requests to publish the  
entire address by class president Jane  
Kennedy. The text of her speech follows.

On behalf of the Class of 1981, I would like to say thank you to all who have helped us to  
arrive at this day. We are grateful to the faculty, administration, and staff of Michigan State  
University College of Osteopathic Medicine; to our clinical instructors; to our parents. We  
owe thanks to families, to friends, and to each other. Additionally, most of us have a special  
thank you for those particular persons who repeatedly offered support, insight, caring, and  
patience during our many difficult (and often neurotic) moments. To all — our deep and  
heartfelt thanks.

Today marks a significant and unique turning point in our lives, and it seems important to  
take time to gather our thoughts about ourselves and our future roles as physicians. We are  
beginning a period of transition — from short coats to long coats, from student to teacher,  
from observer to participant; and with these changes we realize that we have reached a point  
of no return.

In the past, we have examined and evaluated our medical education and medical care  
systems, and we have enjoyed free license to sit on the sidelines and critically judge the game  
and its players. Now, however, it is our turn; we are the players who must be held  
accountable for our judgments. It is finally time for us to take action, meet the challenges,  
implement the changes.

We see medicine today with a realism that was inconceivable at our admission interview, and  
with a perspective that may never again be as unbiased. We have an understanding of a  
patient's confusion and discontent, of a physician's cynicism, of the health care system's  
complexity. We have a realization that beyond the huge quantity of medical information that  
we are required to learn, there are multiple issues that must be dealt with if we are to  
become responsible physicians.

For example, what will be our position on euthanasia, abortion and contraceptive rights,  
inequality of health care delivery? At what level will we act on environmental conditions  
hazardous to health, the need for preventive medicine, the rising costs of medical  
technology? These social, political, and economic issues should be of vital concern to the  
medical profession, and our input should be an integral part of their ultimate resolution.  
Sadly, physicians have played a minor role in working toward answers to these problems, in  
spite of the impact these answers will have on the course of medical care. Many physicians  
choose to avoid and ignore such issues, on the pretext that they are too consumed with the  
practice of medicine. Our time has come to make these choices, to consider the societal role  
of the medical profession, as well as our individual role in society. It is my hope that we  
choose involvement, and work responsibly toward needed solutions.

We should also think today about the part we intend to play in promoting the image of the  
osteopathic profession and improving the quality of medical education. As representatives of  
our school and our profession, let us show ourselves as developing a tradition of education as  
an essential part of the practice of medicine.
Finally, we must be mindful today of the continued public outcry for humanistic, holistic medicine. It is not enough to act as a technician who expertly analyzes, identifies, and attempts to repair the broken part. People are pleading with us to see them as more than machines. While we may see a patient as a composite of symptoms, physical findings, x-rays, and laboratory values, we must also see a person who is frightened by pain and bodily changes; who is anxious about the cause, about the competence of this doctor and this hospital, about the rent payment and the babysitter. We must see a person who doesn't understand our technical words, who has no idea what may happen next, nor why. A person placed in a totally unfamiliar situation and expected to be pleasant and cooperative.

As human beings as well as physicians, we must maintain a level of awareness and basic respect for the feelings and needs of others. We must constantly guard against our own desensitization and distractions so that we are able to acknowledge and relieve the fears, the uncertainty, and the helplessness that are a part of illness. This aspect of care requires time, effort, and sensitivity; but without it, our medicine is incomplete.

Medical student Charlene Greene chats about osteopathic medicine and MSU-COM with students from the High School Honors Science Program. The students, who are doing advanced research at MSU during the summer, toured the gross anatomy laboratory, met with Philipp Gerhardt, associate dean for research, and talked with MSU-COM students.
OSTEOPATHIC STUDENTS ACTIVE AT AOA MEETING: 
FOUR CONSULTING NATIONAL BOARD OF EXAMINERS

As a result of student concern and involvement, the National Osteopathic Board of Examiners 
has appointed four student consultants to the board — one of whom was Lester A. Hart, Ph.D., 
graduate assistant to the dean and president of the Student Council at MSU-COM.

Hart met with the American Osteopathic Association House of Delegates in Chicago July 19-21 
as the MSU-COM student delegate and as a voting member of the Michigan delegation. 
Ross VanAntwerp served as the alternate student delegate.

Concurrent with the meeting of the House was a session of the Council of Student Council 
Presidents. During this meeting, much time was devoted to discussion of the osteopathic 
national board examinations and the potential availability of top-quality internship sites in 
the future.

New officers of the national Council are Jim Mitchell of Texas, chairperson; Lee Blatstrin of 
Pennsylvania, vice chairperson; Lester Hart of MSU-COM, secretary; and John Budinger of 
Illinois, member at large.

***

NATIONAL OSTEOPATHIC MEDICINE WEEK: 
SEPTEMBER 13-19

The second annual National Osteopathic Medicine Week is scheduled for September 13-19.

Theme for the remembrance is "Health for the Whole Person!" The event is a time for 
osteopathic hospitals, colleges, and physicians to make a concerted effort to promote 
awareness of osteopathic medicine and to make their special services better known to the 
public.

The week is sponsored by the American Osteopathic Association and the American 
Osteopathic Hospital Association.

***

OSTEOPATHIC COMMUNICATORS’ WORKSHOP 
AT MSU SEPTEMBER 23-24

A special workshop for communications professionals from Michigan’s osteopathic institutions 
will be held at MSU’s University Club September 23-24.

The workshop will include topics ranging from the value of community relations to the use of 
cable television, and opportunity for the participants to identify common challenges and 
potential points of collaboration.

Planning committee members include Russ Tuttle of Botsford General Hospital, Les Hauser of 
Lansing General Hospital, Yona Drasnin of the Michigan Association of Osteopathic 
Physicians and Surgeons, and Nan Houston and Pat Grauer of MSU.

The $45 fee covers workshop costs, dinner, continental breakfast, luncheon, and afternoon 
refreshments. For further information, call Medicine and Health Information, MSU-COM, 
517/353-0820.
Melvin B. Saltzman, D.O., 1975 alumnus, has become associated in the practice of digestive diseases, clinical nutrition and internal medicine with Drs. David Gardner and Martin Sherer in St. Louis, Missouri.

Harold Margolis, D.O., clinical associate professor of internal medicine, and Mary Jo Kosinski Voelpel, D.O., 1975 alumna, are coauthors of "Common Hemoglobinopathies and Their Management," published in the May 1981 issue of the Michigan Osteopathic Journal. Dr. Margolis is chief of the Department of Hematology and Dr. Kosinski Voelpel is a hematology fellow at Martin Place Hospital, Madison Heights.

Felipe Kierszenbaum, Ph.D., associate professor of microbiology and public health, and Donald R. Walz, research lab technician, are authors of "Proliferative Responses of Central and Peripheral Rat Lymphocytes Elicited by Cord Factor (trehalose 6, 6'-dimycolate)," published in Infection and Immunity 33:115-119, 1981. Dr. Kierszenbaum also presented papers at the annual meeting of the American Society of Parasitologists, held in Montreal in August. The papers were entitled "Cytotoxicity of Eosinophil Granule Major Basic Protein for Bloodstream Forms of Trypanosoma cruzi," and (coauthored with J.R. Maleckar, Ph.D., student in microbiology and public health in the graduate program of MSU-COM) "Alterations in Specific Cellular Immunity during Experimental Trypanosoma cruzi Infection."

Kathryn Hart, M.D., instructor in the Department of Radiology, was recently board-certified by the American College of Radiology.

Arthur I. Bouier, D.O., 1977 alumnus, was awarded the Upjohn Achievement Award (Excellence in Medicine) for outstanding achievement and service as chief resident for the year at Detroit Osteopathic Hospital.

Edward Boudreau, D.O., 1977 alumnus, captain in the U.S. Army Medical Corps, and chief of the Emergency Medical Service at Fort Monmouth, New Jersey, will end his military service obligation in October. He has accepted a position as assistant director of the Emergency Department of Bayshore Community Hospital in Holmdel, New Jersey.

E. Michael Lodish, D.O., clinical associate professor of oncology, discussed the sarcomatous tumors of the retroperitoneal space at a recent meeting of urologists held in Traverse City, Michigan.

Anthony C. Dekker, D.O., 1978 alumnus, watches closely as a Chicago inner city student practices CPR in the osteopathic skills lab at the Chicago College of Osteopathic Medicine. Approximately 40 high school and college students participated in a one-week medical careers workshop at CCOM during July. Dr. Dekker is clinical assistant professor of family medicine at CCOM, and medical director of the Pediatrics Comprehensive Care and Prevention Program and the Adolescent Comprehensive Care Program.
