DON'T MISS
OPEN HOUSE
APRIL 14
OPEN HOUSE

If it doesn't move and it's legal, we've papered it with posters. We've mailed hundreds of flyers statewide, and invited VIPs and nephews, parents and siblings, physicians and laypersons, kids and octogenarians.

Tables are reserved, cleaning help recruited, counts taken for extension cords and A-V equipment and chairs. Exhibitors are finishing up the details of lettering, photos, gluing, measuring, polishing and spit-shining their displays.

We've buttonholed our colleagues, recruiting them to act as tour guides and first-aid personnel and trouble-shooters and cleanup crews. We've plotted the care and feeding of exhibitors. We've made signs and cleaned bulletin boards and hung banners.

We're just about ready for the 1984 open house -- MSU-COM's third.

The event, held in conjunction with the university-wide open house, was begun to provide opportunities for prospective students and their families to tour the medical school and meet with admissions personnel, for families of students to appreciate their daily endeavors, and for friends of the college and the public to learn more about osteopathic medicine and osteopathic education at MSU.

Exhibits

It's still not too late for faculty, students, staff or affiliated hospitals to arrange to provide an exhibit for the open house. Persons interested should call the Open House Committee at 517/353-0820 immediately to make arrangements for space.

Current exhibitors include:

- Continuing Medical Education
- Department of Anatomy
- Department of Biochemistry
- Department of Biomechanics
- Department of Community Health Science
- Department of Family Medicine
- Department of Internal Medicine
- Department of Osteopathic Medicine
- Department of Pathology
- Department of Pediatrics
- Department of Pharmacology and Toxicology
- Placental Tissue Registry
- Preceptor Junior Partnership Program
- Department of Psychiatry
- Department of Radiology
- Detroit Osteopathic Hospital Corporation
- Flint Osteopathic Hospital
- Immunization Program
- Medical Humanities Program
- Medical Scientist Training Program
- MSU-COM Alumni Association
- Office of Admissions
- Office of Curriculum
- Office of Research and Graduate Studies
- Pontiac Osteopathic Hospital
- Saginaw Osteopathic Hospital
- Sigma Sigma Phi
- Student Affairs Office
- Student Associate Auxiliary
- Student Osteopathic Medical Association
- Undergraduate American Academy of Osteopathy
- Unit III
APRIL 18 PROGRAM ON INCONTINENCE IN THE ELDERLY: DR. MURRAY RASKIND TO DISCUSS DEMENTIAS ON APRIL 23

Two programs of special interest to physicians and others who provide care to the elderly will be sponsored in April by the Geriatric Scholar Program of the Michigan Geriatric Center.

The Michigan State University 'Core Group' at the center, based at the University of Michigan, includes Dr. Joseph Papsidero, College of Osteopathic Medicine, Sister Mary Honora Kroger, College of Human Medicine and MSU Executive Committee on Aging; Sue Haviland, College of Nursing, and Dr. James O'Brien, College of Human Medicine.

A class on structural diagnosis
THURSDAY, MAY 17, 1984

* Lansing Area Pathologists Case Studies. 5:30 p.m. in A131 E. Fee. One hour CME credit. Contact Sandy Kilbourn, 517/353-9714.

MONDAY, JUNE 11, 1984

FRIDAY, JUNE 15, 1984

MONDAY, AUGUST 13, 1984

* "Tutorial on Direct Action Thrust Manipulative Therapy" sponsored by the MSU College of Osteopathic Medicine and College of Human Medicine. Through August 17 at MSU's Kellogg Center. 40 hours Category I credit for M.D.s and D.O.s. Contact Sandy Kilbourn, 517/353-9714.

SATURDAY, SEPTEMBER 8, 1984

FRIDAY, SEPTEMBER 14, 1984

FRIDAY, SEPTEMBER 21, 1984

MONDAY, APRIL 9, 1984

Biochemistry seminar: "Transmembrane Movement of Sugar Residues During Glycoprotein Synthesis" by Martin D. Snider, Department of Embryology, Carnegie Institution of Washington, Baltimore. 4 p.m., 101 Biochemistry.

TUESDAY, APRIL 10, 1984

Pharmacology and Toxicology: "Selenium and Phagocytosis" by Nikolay Dimitrov, Department of Medicine, MSU. 4 p.m., B448-9 Life Sciences.

WEDNESDAY, APRIL 11, 1984

"Initial Management of Trauma" by Thomas Petinga, D.O., chairman, Department of Emergency Medicine, Mt. Carmel Hospital. 12 p.m. in auditorium of Oakland General Hospital, 27351 Dequindre, Madison Heights. For information, call 313/967-7795.

"Pediatric Urology." 6 p.m. at Michigan Center for Continuing Education in Osteopathic Medicine, 900 Auburn Rd., Pontiac. 2.5 CME credits. Contact Duane M. Tester, 313/335-7742.

THURSDAY, APRIL 12, 1984

"Severe Lower Respiratory Tract Infections" by Carl Lauter, M.D., chief of infectious diseases, William Beaumont Hospital, Royal Oak. 12 p.m., auditorium, Oakland General Hospital, 27351 Dequindre, Madison Heights. CME credit available. Contact Office of Medicine Education, 313/967-7795.

Microbiology and Public Health: "Genetic Structure of t-Haplotypes" by Karen Artz, Sloan Kettering. 4 p.m., 146 Giltner.

FRIDAY, APRIL 13, 1984

SATURDAY, APRIL 14, 1984

* MSU College of Osteopathic Medicine Open House: features exhibits, tours, demonstrations, and opportunities to talk with medical students and faculty. For information, call 517/353-0820.

"Common Medical Problems -- Part I." 8 a.m. to 3:15 p.m. at Detroit Osteopathic Hospital, 12523 Third Avenue, Highland Park. Approved for six hours Category IA CME credits. For information, call 313/252-4823.

MONDAY, APRIL 16, 1984

Pulmonary Lectures: "Hemoptysis, Diagnosis and Treatment" by John Haapaniemi, D.O., director of pulmonary services, Grace Hospital, Detroit. 11:30 a.m. to 1 p.m. Botsford General Hospital, 28050 Grand River Avenue, Farmington Hills.

Biochemistry seminar: "Swainsonine, Loco Weed, and the Metabolism of Glycoproteins Containing N-Linked Oligosaccharides" by Oscar Touster, Department of Molecular Biology, Vanderbilt University. 4 p.m., 101 Biochemistry.

TUESDAY, APRIL 17, 1984

Pharmacology and Toxicology: "Influence of Metallothionein Preinduction on Kinetics and Toxicity of Cadmium in Isolated Hepatocytes" by John M. Fraizer, Department of Environmental Health Sciences, School of Hygiene and Public Health, The Johns Hopkins University. 4 p.m., B448-9 Life Sciences.

THURSDAY, APRIL 19, 1984

Microbiology and Public Health: "Metabolism of CO₂ and CO Involving Metaloenzymes in Acetogenic Bacteria" by L. G. Ljungdahl, Department of Biochemistry, University of Georgia. 4 p.m., 146 Giltner.

MONDAY, APRIL 23, 1984

Biochemistry seminar: "N-acetylglucosaminyltransferase Substrate Specificity Controls the Degree of Branching of Complex N-glycosyl Oligosaccharides" by Harry Schachter, Division of Biochemistry Research, The Hospital for Sick Children, Toronto. 4 p.m., 101 Biochemistry.

Pharmacology and Toxicology: "Clinical Studies with Amphetamine in Schizophrenia" by Burt Angrist, Department of Psychiatry, New York University Medical Center. 4 p.m., B448-9 Life Sciences.

THURSDAY, APRIL 26, 1984

Microbiology and Public Health: "Gene Expression in the Photosynthetic Bacteria Rhodopseudomonas sphaeroides" by S. Kaplan, Department of Microbiology, University of Illinois. 4 p.m., 146 Giltner.
MONDAY, APRIL 30, 1984

Biochemistry seminar: "Targeting of Newly Synthesized Lysosomal Enzymes to Lysosomes" by Stuart Kornfeld, Division of Hematology-Oncology, School of Medicine, Washington University, St. Louis. 4 p.m., 101 Biochemistry.

TUESDAY, MAY 1, 1984

"Management of Insomnia with Reference to the Elderly" by Tom Roth, Ph.D., director of Sleep Center, Henry Ford Hospital. 12 p.m. in Oakland General Hospital Auditorium, 27351 Dequindre, Madison Heights. Credit available. Contact Office of Medical Education, 313/967-7795.

Pharmacology and Toxicology: "The Epidermal Culture - a Tool in Toxicology" by Isadore A. Bernstein, School of Public Health, University of Michigan. 4 p.m., B448-9 Life Sciences.

THURSDAY, MAY 3, 1984

Microbiology and Public Health: To be announced by MaryAnn Osley, Sidney Farber Institution, Boston. 4 p.m., 146 Giltner.

SATURDAY, MAY 5, 1984

* "Advanced Muscle Energy Tutorial (Below Diaphragm)" sponsored by the MSU College of Osteopathic Medicine and College of Human Medicine. Through May 9. 40 hours Category I credit for D.O.s and M.D.s. Contact Sandy Kilbourn, 517/353-9714.

MONDAY, MAY 7, 1984

Pulmonary Lectures: "Current Concepts in Pulmonary Edema" and "Biventricular Function, Importance of Right Ventricular Function in the Critically Ill" by William Sibbald, M.D., co-coordinator of the Critical Care Trauma Unit, Victoria Hospital, and clinical professor of medicine, University of Western Ontario. 11:30 a.m. to 2:15 p.m. Botsford General Hospital, 28050 Grand River Avenue, Farmington Hills.

Biochemistry seminar: "Mannose-oligosaccharide Recognition by Macrophages: Kinetic and Functional Studies" by Philip Stahl, Department of Physiology & Biophysics, School of Medicine, Washington University, St. Louis. 4 p.m., 101 Biochemistry.
The MSU College of Osteopathic Medicine was "in the eye of the peacock" April 2 as a production crew from NBC's "Today" spent nine hours videotaping on campus.

The material will be used within the month as one of Dr. Art Ulene's features on the show. Exact air date is unknown.

Focus of the production was the osteopathic profession and osteopathic education. Arrangements were made cooperatively by public relations personnel both at the College and the American Osteopathic Association.

Among the College scenes videotaped were an interview with Philip E. Greenman, D.O., associate dean, who gave an overview of the profession; the office of community physician R.G. Curtiss, D.O., who discussed the concepts of patient-centered medicine; and research settings in the Department of Biomechanics.

Student Barbara Walters-Scherrer was interviewed and was shown working in several educational settings: in a preceptorship with Barbara Ross-Lee, D.O., chairperson of family medicine, at the Clinical Center; in a small group session on structural diagnosis; and at a lecture.
Continuing Medical Education

MYOFASCIAL RELEASE TECHNIQUE
TUTORIAL AT KELLOGG CENTER

Intensive exposure to basic concepts of myofascial release manipulative therapy will be offered in a three-day tutorial at MSU's Kellogg Center April 13-15.

Emphasis will be placed on direct experience, giving participants opportunity to test various forms of motion and motion changes and to palpate various tissues and forms. The course is approved for 24 hours of Category I credit for both D.O.s and M.D.s.

Faculty include
Barbara Briner, D.O., assistant professor, Department of Biomechanics, MSU-COM
John Peckham, D.O., associate professor, Physical Medicine and Rehabilitation, Texas College of Osteopathic Medicine; and
Robert C. Ward, D.O., professor of biomechanics and family medicine.

***

ADOLESCENT MEDICINE SEMINAR APRIL 16
TO FOCUS ON SUBSTANCE ABUSE

Substance abuse in the adolescent will be featured Monday, April 16, in a program cooperatively offered by St. Lawrence Hospital, the College of Osteopathic Medicine, the College of Human Medicine, and the Michigan Academy of Family Practice. The program has been approved for Category I credit for osteopathic physicians.

Keynote speakers include R. Keith Simpson, D.O., medical director and chief executive officer, and Cynthia James, M.S.W., vice president for community/industrial development both of Greatwest Health Services, Inc.

MSU-COM presenters include Kenneth Stringer, D.O., assistant professor of pediatrics, on "The Spiritual Side of Recovery," and Ruth Worthington, D.O. assistant professor of pediatrics, on "Adolescent Development and the 12 Steps of AA."

The program will be held from 8:30 a.m. to 4:15 p.m. in St. Lawrence Hospital Auditorium, 1201 Oakland Ave., Lansing.

***

ADVANCED MUSCLE ENERGY TUTORIAL
MAY 5-9: KELLOGG CENTER

Examination, analysis and treatment of the lower extremities, pelvis, abdomen, and lumbar spine will be featured in this tutorial on the advanced muscle energy techniques used below the diaphragm.

The course, approved for 40 hours Category I credit for D.O.s and M.D.s, is scheduled for May 5-9 at MSU's Kellogg Center.

Faculty include
Paul Kimberly, D.O., clinical professor of biomechanics, MSU-COM, and former Stuenenberg Professor and chairman of the Department of Osteopathic Theory and Methods, Kirksville College of Osteopathic Medicine
Fred Mitchell, D.O., professor, Department of Family Medicine, MSU-COM
Carl W. Steele, M.S., P.T., director of physical therapy and occupational therapy, Metropolitan Hospital, Detroit.
ALUMNI

'73 Joseph Pitts, D.O. was chosen Physician of the Year by his peers at the Michigan Osteopathic Medical Center Acute Care Hospital where he is MOMC's vice chief of staff and has chaired its family practice staff since 1982. Richard A. Johnson, D.O., chief of staff, noted Dr. Pitts is a role model for family practice physicians: "His offices are located on Detroit's near east side in a poor neighborhood where he still makes housecalls. Those who know him say his patients love him." Dr. Pitts initiated and coordinated a nutritional food fair in 1983 at the Acute Care Hospital to encourage good dietary habits among inner city residents. He also helped launch Project Caring, MOMC's soup kitchen project.

'79 Anne M. Pawlak, D.O., is beginning a professional alliance with Glendale Neurological Association, with hospital coverage primarily at Garden City Osteopathic and Michigan Osteopathic Medical Center, and secondarily at Oakland General and Botsford General Hospital. She also announces a "personal alliance" with her engagement to David A. Simpson, D.O., an intern at Doctors Hospital, Columbus, who will be pursuing a specialty in neurology. He is a 1983 alumnus of the Kirkville College of Osteopathic Medicine.

Robert L. Snyder, D.O. is a father for the first time. Kenneth Robert Snyder arrived February 6 (9 lb., 4½ oz., 21½ inches long), delivered at McPherson Community Health Center by Gary Falkenberg, D.O. Dr. Snyder reports that "baby, mother and father are doing well."

'82 Mary Hughes, D.O., and husband David announce the birth of their first child, a son named William Patrick, who was born on March 12. The baby, who weighed 8 lb., 11 oz., was 21 inches long. Dr. Hughes is currently a second-year emergency medicine resident at E.W. Sparrow and Ingham Medical Hospitals in Lansing.

FACULTY

Celia B. Guro, Ph.D., coordinator for counseling and academic advising, has been appointed to the board of directors of Samaritan Counseling Center of Central Michigan, Inc.

Kay E. White, Ph.D., assistant dean for student affairs, was recently awarded a plaque by the United States Navy Recruitment Command in appreciation for the assistance she has given to the Michigan Naval Recruitment District.

Teresa Bernardez, M.D., professor of psychiatry, has been elected to the board of directors of the American Group Psychotherapy Association for 1984-87. She also was a speaker on "Issues of Women" at a clinical symposium on "New Perspectives of the Life Cycle," cosponsored by the Michigan Osteopathic Medical Center and the American College of Neuropsychiatry and held in Detroit on March 17.

STUDENTS

James Ploucha, Ph.D., a postdoctoral student in the Medical Scientist Training Program, and Gregory Pink, Ph.D., associate professor of pharmacology and toxicology, are coauthors of "Hemodynamics of Hypertension with Acute Intravenous and Intracerebroventricular Angiotensin II in the Rat." The paper was presented at the meeting of the Federated American Society for Experimental Biology, held in St. Louis April 2 - 6.
