OPEN HOUSE '85
WELCOME!
YOU'RE INVITED!
Don't miss a tour of the world's largest laboratory using human cells to study the causes of cancer. Take a walk through unique facilities for research on the human body in motion. Watch demonstrations of manual medicine.

They are all part of this year's open house at the MSU College of Osteopathic Medicine, scheduled from 10 a.m. to 3 p.m., Saturday, April 20, in Fee Halls. (Fee Halls are at the intersection of Hagadorn Road and the railroad tracks on the southeast corner of the East Lansing campus.)

The event, the fourth for MSU-COM, is held in conjunction with MSU's campus-wide open house April 18-20. The College of Engineering and College of Veterinary Medicine are also holding major events that Saturday.

Visitors will have opportunity to talk with admissions personnel, financial aid counselors, faculty and medical students. They can tour the anatomy laboratory or view a slice of the world through the electron microscope. Guests can try their skills at untangling a sensitive issue in medical humanities. They can see demonstrations of osteopathic manipulative medicine to understand its usefulness in the context of total medical care. They will see medical education at work, as students share their experiences, their texts and curriculum, and demonstrate their clinical skills.

Numerous exhibits will include osteopathic hospitals, costs of medical education, family medicine, pediatrics, internal medicine, pathology, radiology and pharmacology.

A wide array of medical videotapes, instruments in the doctor's bag, and blood pressure screening will be available.

There is no admission charge and reservations are not needed. For further information, call (517) 353-0820.
Join Us!

The 1985 Student Open House Planning Committee includes students Dave Bracciano, Sue Gleshower, Halina Harding, Tim Hodge, Vicki Hunter, Tedd March, Dave Prieskorn, Jon Radnothy, Dave Semeyn, Gail Slomczenski, Mark Weiner, and Kay White, associate dean for student affairs, and Pat Grauer, Medicine and Health Information.

Exhibitors to date include the following. Most have multiple displays.

- Department of Anatomy
- Department of Biomechanics
- Department of Family Medicine
- Department of Internal Medicine
- Department of Osteopathic Medicine
- Department of Pathology
- Department of Pediatrics
- Department of Pharmacology and Toxicology
- Department of Radiology
- Medical Humanities Program
- Medical Scientist Training Program
- Office of Admissions
- Financial Aids
- Clinical Affairs
- Development
- Continuing Medical Education
- Carcinogenesis Laboratory
- Laboratory for Ultrastructural Research
- Medicine and Health Information
- Student Associate Auxiliary
- Carson City Hospital
- Metropolitan Hospital, Grand Rapids
- Lansing General Hospital
- Fee Follies
- Student Osteopathic Medical Association
- Sigma Sigma Phi
- Undergraduate American Academy of Osteopathy
- Class of '87
- Class of '88
- Black Osteopathic Student Association
Alumni Newsnotes

1974
MARTIN A. FINKEL, D.O., received an appointment to the State of New Jersey Governor's Task Force on Child Abuse Protection Subcommittee for work on child sexual abuse. He also organized the Camden County Coalition Against Child Sexual Abuse.

1975
MATTHEW A. TERRY, D.O., has been promoted to associate dean for academic affairs at the Southeastern College of Osteopathic Medicine in North Miami Beach, Florida. He also serves as professor and chairman of the Department of Family Medicine.

1976
RONALD F. MAIO, D.O., is the author of "Intralingual Naloxone Reversal of Morphine-Induced Respiratory Depression in Dogs" published in the December 1984 issue of Annals of Emergency Medicine. He also was certified by the American Board of Emergency Medicine in July.

1977
ARTHUR I. BOUIER, D.O., has been named to the Governor's State Chronic Disease Advisory Committee and appointed to the Board of Trustees for the Physician's Review Organization for Wayne County. He is on the staff of Detroit Osteopathic Hospital, where he completed his internship and internal medicine residency.

1978
ROB GRAMENZ, D.O., and CAROL RAMM were married in East Sangerville, Maine, on June 23, 1984, and "were happy to have classmate KENYON KENDALL attend." They bicycled and traveled by rail in Europe, and are now living in Lansing where Rob started his residency in pediatrics at MSU-COM on January 2. Carol is studying yoga, baking bread and looking for a job in human services.

MICHAEL N. MUSCI JR., D.O., has joined Southwestern Michigan Neonatology, P.C., of Bronson Methodist Hospital in Kalamazoo. Her formerly worked with the University of Medicine and Dentistry of New Jersey - School of Osteopathic Medicine.

1981
ERIC DEAL, D.O., was honored as "Doctor of the Day" in mid-January before the Georgia State Senate and House of Representatives. He was introduced by his district's Senator Stumbaugh and Representative Robinson.

GLENN V. DREGANSKY, D.O., and wife Melodie are living in Bavaria "courtesy of the U.S. Army." A captain, Dregansky has completed his residency and now has a "diverse and busy family practice -- everything from delivering babies to counseling teens to gunshot wounds and tank wrecks."
DOUGLAS H. JOYCE, D.O., is completing his general surgery residency at Lansing General Hospital and has been accepted into a fellowship in cardiovascular surgery at the Cleveland Clinic to begin summer 1985.

G. RENEE THOMAS-CLARK, D.O., and her husband STEVEN are proud to announce the birth of their second son, MICHAEL BENJAMIN, December 30, 1984. Born at Sinai of Detroit, the baby weighed eight pounds, seven and a half ounces.

DAVID B. THROWER, D.O., wife BEVERLY and sons BARTLEY, 6, and DANIEL, 2, announce the birth of NICHOLAS ALBERT on December 27, 1984. The baby was "named for his Grandpa Nick and in memory of his Grandpa Al." Thrower is completing his family practice residency in Kalamazoo and plans to begin practice in Plainwell in July.

KEITH BARBOUR, D.O., and his wife DEBRA are the proud parents of their first child, JESSICA LYNN, born November 17, 1984, at Lansing General Hospital. She weighed six pounds, eight and a half ounces.

CHARLENE GREENE, D.O., working in Honor, Michigan, notes "my practice is building and I'm enjoying the great white almost-North. Come on up! The skiing's great!"

ARNOLD S. LOO, D.O., has been elected to professional membership in the American Diabetes Association and its council on public health care delivery. He is currently serving as a first-year internal medicine resident at the University of California - San Francisco/ Highland General Hospital. He resides in Berkeley, overlooking the San Francisco Bay.

RONALD H. BRADLEY, D.O., Ph.D., presented three papers in fall scientific meetings. They included "Localization of Bombesin at the Electron Microscope Level Employing the Modified ABC Method in the Rat Neostriatum," published in the Proceedings of the 42nd Annual Meeting of the Electron Microscopy Society of America; "Putative Peptide Neurotransmitters Localized in the Rat Neostriatum" given at the 14th annual meeting of the Society for Neuroscience in Anaheim, California; and (with C.-S. Han, C.-C. Chang, K. Phelan and J.E. Trosko) "Partial Characterization of Gap Junction Proteins from Chinese Hamster V79 and Human (HTp3) Cell Lines" at the 24th annual meeting of the American Society for Cell Biology, held in Kansas City, Missouri.
Continuing Medical Education

THURSDAY APRIL 11
"Extreme Thermophiles and Their Enzymes" by Roy Daniel, University of Waikato, Hamilton, New Zealand. 4 p.m., 146 Giltner. (Microbiology and Public Health)

"Brief Myocardial Ischemia -- Metabolic and Functional Effects" by John Nicklas, M.D., University of Michigan. 4 p.m., 101 Giltner. (Physiology)

WEDNESDAY APRIL 17
"Effects of Testosterone on Spermatogenesis in Hypophysectomized Rats" by Ralph Stevens, Ph.D., University of Michigan at 8 a.m., and "Endothelial Cell Metabolism of Adenosine" by Harvey Sparks, M.D., MSU, at 9 a.m. B205 Life Sciences. (Medicine, Pathology, Pediatrics and Human Development)

"Epidemiological Assessment of Health Effects Resulting from Toxic Contaminants in Water" by Henry Anderson, Wisconsin Department of Health and Social Services. 3 p.m., 221 Natural Resources. (Center for Environmental Toxicology and others).

"Update: Digestive Diseases," 8:30 a.m. to 5 p.m. 6.5 hours Category I credit. Call (313) 762-4707. (Flint Osteopathic Hospital Century Club)

THURSDAY APRIL 18
"Structure and Assembly of Light-Harvesting Complexes in Bacterial Photosynthetic Membranes" by Robert A. Niederman, Rutgers University. 4 p.m., 146 Giltner. (Microbiology and Public Health)

"Spiral Processing of Afferent and Efferent Renal Nerve Activity" by Lawrence P. Schramm, Johns Hopkins University. 4 p.m., 101 Giltner. (Physiology)

FRIDAY APRIL 19
"Tutorial on Myofascial Release Technique" is filled. (MSU College of Osteopathic Medicine)

WEDNESDAY APRIL 24
"Alcoholism: A Major Medical Problem" by Robert Noll, MSU, at 8 a.m. and "The Sonoclot: A More Physiological Approach to the Study of Platelet Function" by Laila Nasr, AMIDEAST Peace Fellow, at 9 a.m. in B205 Life Sciences. (Medicine, Pathology, Pediatrics and Human Development)

THURSDAY APRIL 25
"Electrochemical Regulation of Cellular Metabolism: Principles and Applications in Solvent Producing Anaerobes" by Gregory Zeikus, Michigan Biotechnology Institute. 4 p.m., 146 Giltner. (Microbiology and Public Health)

THURSDAY MAY 2
"Organization and Regulation of the Mouse Amylase Multigene Family" by Miriam Meisler, University of Michigan. 4 p.m., 146 Giltner. (Microbiology and Public Health)
"Tutorial on Myofascial Release Technique" scheduled for April 19-21 at MSU has been filled.

A unique integration of the ancient and modern will welcome participants in MSU-COM's tour to Greece. The excursion, which includes a 20-hour CME program, is sponsored by the MSU-COM Alumni Association and the Greek Medical Society.

Featured sites are Athens, the Acropolis, Delphi, Cape Sounion, the Temple of Poseidon, Corinth, Epidaurus, Nauplia, Olympia and Corfu Island. An optional Greek Island cruise is available.

For further information, contact Sandy Kilbourn (below) or Patsy Wilson of Conlin Travel (800) 521-7939 outside Michigan, (313) 769-9680 within Michigan.

"Diagnosis and Management of Coroary Artery Disease" will include updates on risk management, role of interventional cardiology, drug use in cardiology, PVCs, sudden cardiac death and stress, and others.

Faculty include Michael J. James, D.O., chairman, Cardiology Subsection and coordinator, Cardiology Fellowship Program, Ingham Medical Center, and associate clinical professor of internal medicine, MSU-COM; George Kleiber, D.O., cardiologist and director of Pacemaker Clinic, Ingham Medical Center, and associate clinical professor of internal medicine and coordinator of Cardiovascular System Clinical Program, MSU-COM; Raymond H. Murray, M.D., professor and chairperson, Department of Medicine, MSU; and Park W. Willis, M.D., professor of medicine and director of the Division of Cardiology, MSU College of Human Medicine, and consultant in cardiology to the Surgeon General, U.S. Navy.

Ten hours of Category I credit
Grand Hotel, Mackinac Island
Cosponsored by Riker Laboratories.

This course presents examination, analysis and treatment of lower extremities, pelvis, abdomen, and lumbar spine.

Forty hours Category I credit for M.D.s and D.O.s

Faculty include Edward G. Stiles, D.O., clinical associate professor of biomechanics, MSU-COM; Fred L. Mitchell, D.O., professor of family medicine, MSU-COM; and Carl W. Steele, M.S., P.T., assistant instructor, Dean's Office, MSU-COM

"Fundamentals of Muscle Energy" a prerequisite.

Kellogg Center for Continuing Education, MSU.

Lectures, demonstrations and practice sessions on the spine, pelvis, and extremities using basic principles of manual medicine.

Faculty include Myron Beal, D.O., MSU-COM; John Bourdillon, F.R.C.S.; Paul Kimberly, D.O.; Stephen M. Levin, M.D., and Carl W. Steele, M.S., P.T.

Forty hours Category I credit for D.O.s and M.D.s
Kellogg Center for Continuing Education, MSU.

For information on any CME program, contact Sandy Kilbourn, Coordinator for Continuing Medical Education, MSU-COM, (517) 353-9714.
