Family Medicine Geriatric Fellowship Applicants
Apply for July 2015 Now!

Program Goals
The goal of the geriatric fellowship is to provide training and experiences to enhance the knowledge and skills of physicians in geriatric medicine, which include the following:

- Extensive training in the care of the geriatric patient from the healthy to the frail
- Exposure to a wide variety of venues in which the geriatric patient receives medical care – ambulatory sites, the home, the nursing facility, the hospital – with special attention placed on maintaining the optimal functional health of the patient
- Special knowledge and skills to become educators of other health professionals in geriatric care
- Administrative skills required to manage geriatric programs in the community, assisted living, and long-term care environments
- Experience in writing grants, and performing research with abstracts, papers and presentations at scientific meetings.
