MSUCOM Division of Faculty Development, Learning and Leadership

The Division of Faculty Development, Learning, and Leadership (FDLL) strives to enhance the educational outcomes and scholastic experiences of our student body by addressing: 1) specific faculty development needs; 2) working directly with students to improve learning by augmenting study, testing and self-regulation skills; and 3) oversight of a Masters degree program in Health Professions Education, preparing tomorrow’s academic and administrative leaders today. If you have any requests for guidance and/or suggestions related to any of the three areas, they are a great resource.

Additional information about this division can be found by visiting
