

Islamic Medical Student Association

Mission Statement

IMSA is a student organization which introduces the MSUCOM community to Islamic culture and ideologies. As future health professionals, we will need to accommodate patients from various backgrounds. IMSA attempts to sensitize the MSUCOM community to the unique needs of the Muslim patient. We provide a forum in which Muslim medical students may discuss medical ethics from an Islamic perspective. We also act as a support group for incoming Muslim students. IMSA welcomes all students willing to learn about the medical field and Islam, exchange ideas, and try to make the future of medicine understanding, compassionate, and accommodating for all individuals.
