

SOSA

Student Osteopathic Surgical Association

Suture Clinics

Learn a number of knot tying and suturing techniques from board-certified surgeons

Surgeon Lectures

Gain insight into the surgical lifestyle and how to earn a residency position

Surgical Elective

Be part of the action inside of the operating room

The purpose of the MSUCOM chapter of SOSA is to represent and educate the future osteopathic surgeon. SOSA stresses the understanding of osteopathic principles in relationship to disease in the practice of surgery and provides a forum for discussion among students and surgeons. Additionally, SOSA promotes education in the field of surgery

It is our goal to bring in great speakers from many different surgical specialties.

Benefits of membership include food and drink served at lectures. Members will also participate in the suture clinic for free.
